- <sup>1</sup> Source is annual reports except where otherwise noted. Profit figures exclude abnormal items, except restructuring costs which are treated as operating expenses. Data on non interest income, operating expenses and charge for bad debts are sourced confidentially from major banks and hence are not reported individually. All data are on a consolidated domestic basis. Equity is derived by apportioning total equity pro rata with domestic and overseas assets.
- <sup>2</sup> For 1986, Reserve Bank estimates for average assets, average earning assets and net interest income based on apportioning global figures between domestic and overseas operations.
- <sup>3</sup> For 1986 to 1989, Reserve Bank estimates for average assets, average earning assets and net interest income based on apportioning global figures between domestic and overseas operations.
